## 1. Teach Pendant Soft Cover

# Teach Pendant Soft Cover Installation Guide

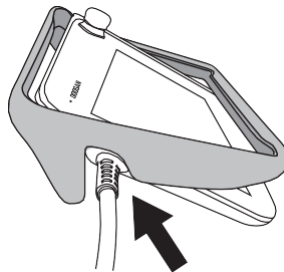

## 1. Teach Pendant Soft Cover Installation

1.1 Insert the teach pendant into the bottom of the teach pendant soft cover.

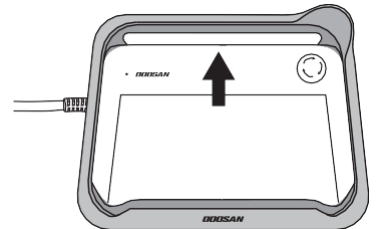

⚠ There is a chance that the emergency stop button will be pressed, so make sure all movements of the robot are stopped before installation.

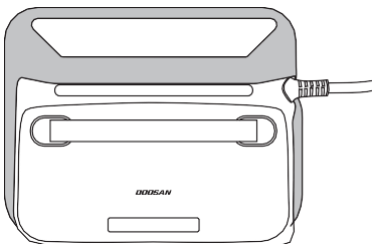

1.2 Place the teach pendant cable connector in the cutout for the teach pendant cable.

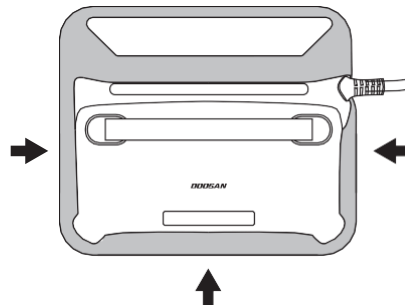

1.3 Push the teach pendant upwards so that the top of the teach pendant touches the top of the teach pendant soft cover.

1.4 Flip the teach pendant with the soft cover to face the backplate.

1.5 Extend the sides and bottom of the teach pendant soft cover to allow the teach pendant to be positioned completely inside the teach pendant soft cover.

- Product life may vary depending on a number of factors including damage and wear caused by use, and Doosan Robotics does not assume responsibility for this.
- The user must verify the applicability of the product prior to fully operating the product.
- Doosan Robotics does not assume responsibility for damage due to unintended operation or unforeseen accidents.
